

## **NEW FOR 2019: The English National Park Experience Collection** Living England's Extraordinary Outdoors

The English National Parks offer some of England's most extraordinary outdoor living landscapes and to celebrate its rich culture, a brand new project has launched targeting international travel trade: [\*\*The English National Park Experience Collection \(ENPEC\)\*\*](#).

Supported by VisitEngland's Discover England Fund, the new collection is made up of 70 plus new immersive visitor experiences and over 80 accommodation providers, across nine of England's National Parks.

Carefully curated by local experts and designed for international travel trade with a specific focus on Australian and German markets, the collection offers truly authentic and memorable experiences to capture the distinctive countryside.

Designed to harness the growing demand for experiential tourism and attract international visitors, the Collection provides easily contractible options for the travel trade. From travel agents, tour operators, wholesales or guides, there is something in the mix for most buyers' upcoming schedules or brochures.

The nine English National Parks involved in the collection are Broads, Dartmoor, Exmoor, Lake District, North York Moors, Northumberland, Peak District, South Downs and Yorkshire Dales. Each National Park is offering a selection of experiences from history, food and drink to outdoor adventure.

Experience highlights include Broads by Kayak, a Dartmoor literacy tour, a Spice Trail in the Lake District and Climbing through History in the Peak District. Accommodation partners include Hesleyside Hall in Northumberland, Yorebridge House Hotel in the Yorkshire Dales and The Luttrell Arms Hotel in Exmoor.

**Explore the full list of experiences and accommodation on the BRAND NEW English National Park Experience Collection website and Travel Trade Buyers Guide:**
